PROFESSIONAL SUMMARY

As a web-based Full Stack developer with 2 years of experience, I specialize in front-end development using AngularJS, and back-end development using Python and Java Spring. I have proficiency in both SQL and NoSQL databases. Currently, I am seeking an entry-level role that presents a challenging environment conducive to self-improvement and personal growth. I am eager to contribute to the success of the team and actively participate in collaborative projects.

EDUCATION

Bachelor of Science: Information Technology

Graduation Year: August 2020

Educational Institution: [*The University of the West of England, Bristol*](#)

First Class

WORK EXPERIENCE

Position: **Senior IT Coordinator**

From August 2021 to October 2022

Company: [*Hong Kong Air Cargo Terminals Limited*](#)

Location: SuperTerminal 1, Hong Kong

- Improved and maintained multiple software applications, such as [*COSAC-Plus*](#) and [*COSAC-Mobile*](#), through UI revamp projects, resulting in enhanced user experience and increased efficiency.
- Implemented a hybrid-cloud data platform on Azure Cloud Services, which included creating a data pipeline and a Power BI report for analysis. The integrated solution successfully optimized operational time by at least 10% and reduced resource loss by a minimum of 5%.
- Collaborated with different teams and users to successfully complete the data platform task, effectively bridging the gap between technical limitations and user requirements.
- Shared project knowledge and documented comprehensive guidelines to facilitate seamless project handovers and enable colleagues to continue projects smoothly

Position: **ABAP Programmer**

From August 2020 to April 2021

Company: [*IVC Consulting Group*](#)

Location: 27/F Easy Tower ,Hong Kong

- SAP- (ABAP) Programming Development & Enhancement Developed SAP ERP Modules Programs & Provided Technical Support for Programs issues.
- Collaborated with business analyst role colleagues to gather user requirements and provide suggestions regarding potential program change side-effects and technological limitations.
